Re: *State of Texas v. State of New Mexico and State of Colorado*,
United States Supreme Court, Original Jurisdiction No. 141

Dear Special Master Melloy:

The State of Texas (Texas) respectfully submits this status report for the May 29, 2020 hearing, addressing the agenda items set forth in the Special Master's May 26, 2020 Order.

A. Continued discussion regarding appointment of a mediator

Texas proposes two potential mediators:

1. Randall W. Wulff
Wulff Quinby Sochynsky
1901 Harrison Street, 14th Floor
Oakland, CA 94612
(510) 663-5222

A copy of Mr. Wulff's curriculum vitae (CV) is attached hereto as Exhibit A.

2. Oliver W. Wanger (Retired U.S. District Court Judge)
Wanger Jones Helsley PC
265 E. River Park Circle, Suite 310
Fresno, CA 93720
(559) 233-4800

A copy of Mr. Wanger's curriculum vitae (CV) is attached hereto as Exhibit B.

Texas is prepared to discuss the attributes of each of these proposed mediators at the May 29, 2020 status conference.

B. Discovery issues

1. Whether the parties should be required to file their expert designations with the Court

Texas supports the Special Master’s proposal at the May 15, 2020 status conference that the parties should file their expert designations with the Court. Texas proposes that the parties file the expert designation pleadings, including supplemental designations, without the reports with supporting data that accompany the pleadings, unless otherwise instructed by the Special Master. The parties’ cumulative reports with supporting data represent multiple terabytes of electronic files, unlikely to be of significant value to the Special Master outside of testimony.

2. Current deposition schedule

The Parties continue to participate in meet and confer efforts regarding the virtual deposition schedule. The following thirty-nine (39) depositions are confirmed (some complete):

<u>Party Taking Lead for Deposition</u>	<u>Witness Name</u>	<u>Description</u>	<u>Date</u>

Texas	Gilbert Barth	New Mexico expert (including rebuttal testimony)	8/18/20 – 8/19/20
Texas	Daniel Morrissey	New Mexico expert (including rebuttal testimony)	8/20/20

In addition to the above depositions, New Mexico has also conferred with the parties regarding six additional witnesses from Colorado (Sullivan), the United States (Drusina), and EP1 (Fifer, Salopek, Reyes, and Ivey). Texas understands that three of the requested EP1 witnesses are on hold, pending discussions between counsel for New Mexico and EP1.

New Mexico has not initiated further meet and confer discussions to add any additional witnesses not discussed above.

C. Begin discussion concerning key issues that will need to be resolved at trial

Key issues to address at trial, many of which may be properly addressed in motions for partial summary judgment, include:

1. Whether the Rio Grande Project was fully integrated into the 1938 Compact;
2. What are New Mexico's duties under the 1938 Compact to protect Rio Grande Project deliveries intended for Texas;
 - a. Does the text of the 1938 Compact require New Mexico to relinquish control and dominion over the water it deposits into Elephant Butte Reservoir; and
 - b. May New Mexico, through its agents or subdivisions, divert or intercept water it is required to deliver to Elephant Butte Reservoir pursuant to the 1938 Compact after the water is released from Elephant Butte Reservoir.
3. Whether New Mexico must refrain from post-1938 depletion of water (i.e., depletions that are greater than what occurred in 1938) below Elephant Butte Reservoir;
4. Whether New Mexico state law plays any role in an interstate dispute;
5. What was the 1938 condition that should be used as the basis upon which to judge New Mexico's actions and the effect of those actions;
6. Has New Mexico's actions depleted the quantity of water available below Elephant Butte Reservoir, and if so, (a) what was the cause of these depletions and (b) what was the extent (quantification) of these depletions;
7. The nature and extent of hydrologically connected groundwater and its relationship to the Rio Grande and the Rio Grande Reclamation Project and the relevant issues raised in the Texas complaint;
8. The historic and current operations of the Rio Grande Project;

Judge Michael J. Melloy

Re: *State of Texas v. State of New Mexico*, et al.

May 28, 2020

Page 5

9. The quantity of water that Texas was entitled to under the Rio Grande Compact and the quantity of water that Texas actually received under the Rio Grande Compact, with the difference being a quantification of Texas's injury; and
10. The determination of the appropriate remedy, which would include:
 - a. Injunctive relief;
 - b. Past damages-water or dollars; and
 - c. Prospective damages-water or dollars.

We appreciate Your Honor's consideration of Texas's positions in advance of the May 29, 2020 status conference and look forward to the upcoming hearing.

Very truly yours,

s/Stuart L. Somach

Before becoming a full-time neutral in 1994, Randall Wulff was a trial lawyer with Farella Braun & Martel LLP in San Francisco for 20 years, specializing in complex commercial, construction, intellectual property, securities, insurance coverage, real estate and employment litigation, representing both plaintiffs and defendants. Mr. Wulff received his J.D. from the University of California, Hastings College of the Law, in 1974, where he was ranked first academically in his class in 1972 and 1973, achieving the academic honoraries of the Order of the Coif and Thurston Society. In 1974, he then served as Hastings' first extern for the Chief Justice of the California Supreme Court, and also worked on the editorial staff of the Hastings Law Journal. In addition to his active trial practice at Farella, he was also an adjunct professor at Hastings, having taught courses in "Trial Evidence" and "Complex Litigation." Mr. Wulff has tried cases in federal court, state court and the U.S. Court of Claims. He has also arbitrated many cases and acted as an arbitrator in several more.

Because of this extensive experience, Mr. Wulff has been selected as a mediator in over two thousand diverse cases, settling most of those cases. They have ranged from twoparty cases to suits involving more than one hundred parties.

Mr. Wulff successfully mediated the \$2.75 billion agreement between Discover, MasterCard and Visa. He also mediated the \$1.1 billion class action settlement of the Microsoft antitrust claims in California.

In 2004, after a nationwide search for several months, Mr. Wulff was selected by the Chief Judge in the Southern District of New York to lead the panel that heard and decided the property damage claims for the World Trade Center arising from the tragedy on September 11. This included reconstruction costs as well as business interruption claims. These insurance claims were roughly four times larger than any other in the history of the industry.

Mr. Wulff is co-editor of two books, the Alternative Dispute Resolution Practice Guide (West Group 1993-2003), as well as a second book devoted specifically to ADR for the construction industry, both being marketed nationally. He has also published numerous articles on alternative dispute resolution ("ADR"), and contributed the chapter on "Mediation" to the nationally published ADR Handbook. He has spoken on mediation at numerous national and international conferences and conventions.

Mr. Wulff regularly appears in each annual selection of Best Lawyers In America, SuperLawyers and other similar published evaluations. He is one of two mediators in California to receive a first tier rating from Chambers & Partners for construction mediation.
