23	JUDGE MELLOY: New Mexico State
24	University?
25	MR. UTTON: Good morning, Your Honor.

This is John Utton on behalf of NMSU. 1 2 JUDGE MELLOY: All right. Anyone I 3 missed? 4 (No response.) 5 JUDGE MELLOY: All right. Let's 6 We don't have a huge agenda today unless the proceed. 7 parties have something they -- they need to address. 8 I quess, let me just start by asking, we're a couple 9 days short of end of the discovery with exception of 10 those -- of the issues that were raised at the last 11 hearing involving the United States and New Mexico 12 over the border commission, but aside from that, is 13 there any other discovery disputes at this point that 14 anybody anticipates bringing before the Special Master 15 or are you pretty much ready to switch into 16 dispositive motion mode at this point? 17

MR. DUBOIS: Your Honor, this is Jim

Dubois for the United States. There are a couple of
depositions that I think have been all worked out to
trickle into September because we've kind of run out
of time on things. I believe we've got agreement on
all of those so I don't expect a controversy, but I
just wanted to let you aware -- to be aware that in
addition to the IBWC, there are -- I think there are
some Texas Environmental Quality and then we have been

1 negotiating with New Mexico about a 30(b)(6), and I 2 think we're -- I think we've reached a tentative 3 agreement. We don't anticipate there will be a 4 problem, but -- but there will be a couple of 5 depositions that trail into September by agreement. 6 JUDGE MELLOY: All right. Anybody have 7 anything else they want to add about that, Mr. Somach 8 or Mr. Wechsler? 9 No. I think, you know, MR. SOMACH: 10 that Jim covered it. The TCEQ was a 30(b)(6), and the 11 individual was also on a -- the hurricane task force 12 and so wasn't available during the period of time 13 because of -- of work on -- on that effort and so --14 so that will trail into next week, but I think 15 Mr. Dubois covered the -- covered it all. 16 JUDGE MELLOY: Well, just -- does 17 anybody have anything they want to talk about on 18 discovery? Otherwise, we'll -- I'll move on. Then 19 the other issue is the one I raised about the 20 I know Ms. O'Brien still would like apportionment. 21 that issue resolved earlier rather than later, but

everybody else seems to be in agreement that included

inclination at this point is to not change anything as

as part of the dispositive motions as a group, my

far as the briefing schedule is concerned. I'll

22

certainly take a look at that issue when the briefs are filed and -- and if it's possible to decide that issue early -- early, as I indicated previously, I'll certainly endeavor to do that, but it may be that it's -- it may be so intertwined with all the other issues that they'll all have to be decided together. I just don't know at this point without seeing how the briefs come in and what they look like.

Mr. Stein alluded to an issue that I've thought about quite a bit, and we've talked about in my office and that is depending on how the dispositive motions are framed and, I guess, depending upon what the ultimate ruling is, whether or not there's going to be a side trip to the Supreme Court before the trial, I hope not, but, you know, I suppose if -- if -- if I decide that one side is going to have so clearly undisputed that a particular legal proposition or factual and legal proposition is -- is going to enure to the benefit of one party or the other, I certainly would anticipate there may be somebody who wants to ask the Supreme Court to take a look at that before we go into a full-blown trial. That's, I think, obviously a bridge we'll cross when we get to it.

Anybody want to be heard on any of those

Otherwise, this is going to be a pretty short issues? hearing. I don't want to waste everybody's time. there anything that needs -- needs to be brought up? MR. SOMACH: I did actually -- I hadn't thought about it until I started seeing letters coming in, and I agree with Mr. Stein in the letter that the New Mexico amici raised that, I mean, after all the dispositive motion will dispose of what might be a very significant issue, and that my assumption would be at a certain point in time, if there were rulings that -- that affected the trial and what people could put on, that those would be bundled together in some report in some way, shape, or form. That was another reason why I thought that -- that briefing that issue separately wouldn't get us very far in terms of

understand, since we're getting into this and October

of the court briefs to the Court.

1 make sure my understanding that it would be the 2 parties filing dispositive motions and not everybody 3 that's participating in some way, shape, or form in 4 the trial so far in the case before. 5 JUDGE MELLOY: Well, let me ask the 6 Does any of the amici disagree with that and amici. 7 believe that they want to file their own dispositive 8 motions? As I understand what you're saying, 9 Mr. Somach, just so we're clear, the amici would be 10 allowed to respond to the motion that you or New 11 Mexico, the United States or Colorado might file, but 12 they would not be filing their own motion that you 13 would have to respond to? 14 MR. SOMACH: Right. 15 JUDGE MELLOY: May file a reply to their 16 motion, but you wouldn't be responding to their 17 motion. 18 Right. Right. MR. SOMACH: That's 19 exactly right. I just know we've got four parties, 20 presumably at least three parties will -- will file 21 dispositive motions, perhaps Colorado, and I just want 22 to make sure I knew what -- what to expect come 23 October 15th. 24 MR. BROCKMANN: Your Honor, this is Jim 25 The water authority is one of the amici Brockmann.

that joined in -- in the letter that you refer to as being the one from Mr. Stein. I did want to make clear that for the water authority at least, we anticipate that we would participate as amici as we have in the past, which is with briefs in support or in opposition to one of the parties, not that we would file motions on our own behalf. I think that's been the more traditional role of amici in the original action is not to file their own motion, but to file support or opposition on behalf of a party with which they agree on an issue and we anticipate that here. In terms of the issue of the potential apportionment issue or anything else going up, I -- I believe that just is going to play out as the case goes on. there's an early ruling from you that could really affect the -- the disposition of the case, an early apportionment issue, I can understand where a party might say the whole case flows from here, and it's important to -- to have that resolved by the Court if there is a sharp dispute. If everything gets packaged together as -- as a file, after resolution at trial, I think then that's going to be probably a single report. We were just trying to -- to point out maybe that some of the concerns of trying to start segmenting too much of the case. So that's -- that's

all we've got to say on those particular issues, the water authority has to say.

been giving that some thought, that depending on how the dispositive motions play out, if -- if it ends up that I feel I could rule in a manner that is going to really substantially impact the case and how it's -- how the trial is presented, I've always thought that it's very possible that one party or the other may ask -- want to -- or I may decide I want the Supreme Court to take a look at that before we spend potentially weeks of -- of evidence on -- on an assumption that ultimately turns out to be incorrect so --

MR. UTTON: Your Honor --

MS. O'BRIEN: Your Honor --

MR. UTTON: Sorry, Your Honor. This is John Utton. I just want to quickly confirm our understanding of how the briefing would proceed, as Mr. Somach and Mr. Brockmann described it. We would expect to be responding in an amici capacity.

JUDGE MELLOY: Okay. Ms. O'Brien?

MS. O'BRIEN: Yes, Your Honor. As
Mr. Somach himself acknowledged, this case is -- has
some very unique aspects, and in the context of
dispositive briefing, El Paso County Water Improvement

District No. 1 on some discrete issues that directly affect it, we had intended -- do intend to file a brief and, you know, the reason being we have all acknowledged and Your Honor has acknowledged from the commencement of this case that the Rio Grande Project of which EP No. 1 is one of two beneficiaries, is integral and integrally intertwined with -- with the Compact, and we feel that on some discrete issues, that it is appropriate for us to file a -- a brief as part of our participation in the case and in -- in the briefing presented by the other parties.

believe you have to file anything beyond a response to -- to another party? I mean, presumably Texas is going to present its interpretation of the contract.

New Mexico -- or Compact. New Mexico will present its interpretation. United States may have a third view of it. It seems to me there will be plenty of opportunity for you to respond in either disagreement or agreement with any of those views.

MS. O'BRIEN: Yes, Your Honor, I -- I understand that point. But I do believe that we are uniquely situated such that we do have a view that -- that may -- yes, may overlap with views of the parties, but in terms of our vantage point and

articulation, I believe that it would be best if we were provided the opportunity to file initial briefs and not just re -- respond to -- to the other parties. As you can see, we do have somewhat of a disagreement procedurally I would say at this point with -- with the other parties. While we certainly, you know, understand the desire and articulation to keep the briefing schedule as-is, and we certainly agree with what Your Honor has stated and the parties have stated, that the briefing itself, I think, will assist Your Honor as well as the parties and amici in determining what the next steps in the case will be. I think it will become clearer that, in fact, this threshold issue of what our entitlements below Elephant Butte will become clearer, but, you know, again, going back to really procedural question, we believe, we being El Paso County Water Improvement District No. 1 believes we should be afforded the opportunity on -- certainly on the issue of entitlements below Elephant Butte to file a brief on its own behalf. We don't -- we don't think that is anything out of the ordinary in the context of the particular issues in this case, as well as an original action, and we're -- Your Honor has a fair amount of discretion or a lot of discretion to determine the

best way to get all the issues out for both Your Honor and the parties.

JUDGE MELLOY: Would you and Ms.

Barncastle be anticipating you would file -- are you -- are you two on the same page, let me put it that way, as far as your position in my briefing?

MS. BARNCASTLE: Your Honor, this is

Samantha Barncastle for the Elephant Butte Irrigation

District, and I am still in the process of evaluating

whether the dispositive motions that will be filed

will seek the proper relief that will adequately cover

what EBID believes needs to be covered. So it's not

necessarily just a matter of whether the issues will

be generally raised sufficient to allow us to file a

response brief, but also whether the relief requested

in those briefs and those motions will adequately

cover what EBID believes needs to be covered to

protect EBID and so I am still, like Ms. O'Brien,

considering the possibility and the necessity of

filing my own dispositive motion on some discrete

issues that affect EBID.

JUDGE MELLOY: Well, let me say this: We're going to have probably three parties filing briefs. I assume Colorado probably won't, but potentially four, but likely three. If I would --

1 what I would request is that Ms. Barncastle, Ms. 2 O'Brien confer with counsel to see if the issues that 3 they are concerned about are going to be raised in the 4 briefing and the relief that they're seeking can be 5 adjudicated through either the brief summary or the 6 motion someone else is filing or through a response. 7 If you feel it cannot and you need to file a brief or 8 motion on a specific discrete issue, I'm going to 9 direct that you seek leave to file and indicate what 10 you're going to file and -- and why you think you need 11 to file a separate motion. And I'll -- I'll -- I'll 12 say that for any of you. But -- but at this point, 13 the amici do not have leave to file briefs without --14 without filing a motion and getting an order from the 15 Court to that effect. Any question about that? 16 put that in the order. 17 All right. Anything else we need to 18 talk about? 19 Your Honor, we don't need MR. SOMACH: 20 to talk about this, but I was curious on when the 21 parties were putting together the letter, we were 22 aware of the storms in Iowa and where you were and 23 were curious about whether you had, so to speak,

JUDGE MELLOY: I weathered the storm.

weathered the storm.

1 Thank you very much. It was -- it was like a mini 2 It was a hundred mile an hour winds for hurricane. 3 about 30 minutes, anywhere from 50 to 60 percent of 4 the trees in Cedar Rapids have been destroyed. 5 house sustained fairly minimal damage. I had some lattice work around an exposed part of the underside 6 7 of one of my house, part of my house, that blew out 8 and the light post, the top was blown off, but -- but 9 we have a wooded area behind our house. We lost about 10 20 trees and so that's the biggest. But -- but I'm 11 very lucky in that none of them fell on my house, 12 unlike a lot of people. My neighbor right behind me, 13 I was talking to him yesterday, and he -- he's already 14 up to over \$70,000 in damage on his insurance claim 15 because he had two trees fall into his house, and 16 between repairing the roof and the decking and the new 17 roof and the removing the trees and -- and maybe even 18 having to replace trusses, he said he's at at least 70 19 ,00, but it was pretty unbelievable. But we're 20 getting through it. Thank you for asking. 21 MR. SOMACH: We're glad you're safe. 22 Thank you. I was home JUDGE MELLOY: 23 watching it at the time. We were in our basement. So 24 thank you very much. I appreciate that. 25 I do have a quick -- somewhat off

subject a little bit. Has -- has anybody heard 1 2 anything from the -- all of a sudden I'm drawing a 3 blank -- other potential intervenors, the -- Dr. --4 what's -- all of a sudden I'm drawing a blank on the 5 name. From the -- ones from the 19 -- early 1900s. 6 MS. DAVIDSON: Boyd Estate. 7 JUDGE MELLOY: Anyone hear anything from 8 Boyd Estate? 9 MS. BARNCASTLE: Your Honor, this is 10 Samantha Barncastle from EBID. Mr. Boyd regularly 11 harasses my general manager, Gary Esslinger, and 12 occasionally sends me harassing e-mails, but I haven't 13 heard from him in a little over a month or two now. JUDGE MELLOY: Well, good, good. 14 15 I think I've disclosed some parties. He did call. 16 didn't talk to him, but my -- he did call and harangue 17 my judicial assistant about -- about the decision, but 18 that goes with the territory. 19 All right. Well, if there's nothing 20 further -- let me just say this. I don't want to take 21 up people's time so unless there's a need for a 22 hearing, I'm not going to schedule one right now. 23 Maybe if -- if something comes up in a few weeks, we 24 may do one towards the end of September, but I don't

see -- I assume at this point you're all going to be

1 working very hard to get your dispositive motions 2 together so I don't see any need to waste anybody's 3 time by -- by hearings like this. 4 MR. WALLACE: Your Honor, in light of 5 that, would you like us to start filing status reports 6 beginning in October? 7 JUDGE MELLOY: Yes, please. Although if 8 all the status report says is you're working -- no, 9 actually, no I don't. I assume the status report will 10 just say you're working on your motion for summary 11 judgment. 12 That's probably true. MR. WALLACE: 13 JUDGE MELLOY: So -- so unless there's 14 something -- unless there's something that comes up, 15 no, you don't need to file a status report to tell me 16 you're working on motions. Well, there's nothing any 17 -- anything else, thank you, everyone. 18 (The proceedings adjourned at 11:25 19 a.m.) 20 21 22 23 24 25
