Before GRUENDER, KELLY, and KOBES, Circuit Judges.

PER CURIAM.

Galewood West Development, Inc., appeals the district court's¹ entry of summary judgment against Galewood on its race-discrimination claims against the

¹The Honorable M. Douglas Harpool, United States District Judge for the Western District of Missouri.

City of Nixa, Missouri. Galewood, a black-owned contractor, claims that the City failed to reimburse it for work on a property-development project for the City, despite the City paying similarly situated white contractors for similar developments. The district court held that Galewood failed to make any showing of a race-based difference in treatment between Galewood and similarly situated contractors.

Upon careful review of the record and the parties' arguments on appeal, we affirm for the reasons stated by the district court. *See* 8th Cir. R. 47B.
